Calendar. Arts at Emory institutions are following the University's COVID-19 guidelines during this time. As soon as there are event updates to share, they will be posted online. Ticket holders will be notified by email or phone of any event changes. Please take a moment to ensure your account contact information is up to date here.

Islamic astronomy comprises the astronomical developments made in the Islamic world, particularly during the Islamic Golden Age (9th–13th centuries), and mostly written in the Arabic language. These developments mostly took place in the Middle East, Central Asia, Al-Andalus, and North Africa, and later in the Far East and India. It closely parallels the genesis of other Islamic sciences in its ...
