Listed below is the vehicle specific wiring diagram for your car alarm, remote starter or keyless entry installation into your 2006-2009 Volkswagen Gti. This information outlines the wires location, color and polarity to help you identify the proper connection spots in the vehicle.

Apr 07, 2010 · The top two hanging down are what stays in the car and the bottom two connectors are on the 205 gti engine loom. these will have to be cut off (ensure you cut about 13 inches of wire off with it to connect the gti-6 loom to) and joined to the new gti-6 loom. Remove the rest of the 205 gti engine ...

Jul 07, 2021 · On a related note CE1 cars with MFA will have connections for the outside temp and oil temp sensor separate to the fusebox which you'll want to keep. Early CE1 MK1 GTI have the MFA oil temp to the fusebox and have the yellow 0.24/0.3bar oil switch wire to a spade near the fusebox instead.

This installation is specifically a 1985 Scirocco with 3A/JH 2.0L 8V engine, utilizing the knock sensor from a 1987 GTI. Wiring Preparation. Wiring diagrams should be obtained for the donor vehicle and the vehicle in which the knock sensor is being installed. The Bentley service manuals are an excellent source for this information.
