This tome (including more than 100 pages of notes and indices) is an abridgment of author Robert Skidelsky's original three-volume biography of John Maynard Keynes. It is in all respects

an extraordinary work. The author offers a portrait of Keynes not only as an economist but also as a philosopher and a statesman.

The eagerly awaited final volume of Skidelsky's definitive biography of Keynes covers the period from 1937, when Keynes had become the world's most influential economist, to his death in 1946.

Insightful and intelligent, this is a work that provides an invaluable overview of matters that remain at the center of political and economic discussion.

John Maynard Keynes (1883-1946) is a central thinker of the twentieth

century, not just as an economic theorist and statesman, but in the borderland of economics, philosophy, politics and culture. Keynes's doctrines continue to inspire strong feelings in admirers and detractors alike. This short, engaging study of his life

and thought explores ...
