Apr 30, 2021 · In terms of the present actuarial value and as a function of annual GDP, in 2050, the savings would be 1.27%, 1.40% in 2044, the maximum, and in 2067 it would decrease to 0.98%. Full article. (This article belongs to the Special Issue Pension Design, Modelling

and Risk Management) . .

Dec 30, 2015 · Mathematics is used in everyday life, be it social, economic, arts, science or technology. However, empirical evidence shows that students achieve poorly in the subject at School Certificate level especially in the algebraic expression. Research findings have indicated that this low achievement may be attributed to inappropriate pedagogies used by teachers and this necessitated this study.

Apr 14, 2019 · This is a practice-led, conceptual paper describing

selected means for action learning and concept motivation at all levels of mathematics education. It details the approach used by the authors to devise insights for practitioners of mathematics teaching. The paper shows that this approach in mathematics education based on action learning in conjunction with the natural motivation stemming ...

to help their students realize the hidden

Jan 03, 2017 · Problem solving is a skill in mathematics which although  
always relevant has heightened priority due to the changes in the new

mathematics GCSE (Department for Education, 2013). It has previously been a skill which is deemed underdeveloped within mathematics and therefore is a theme which teachers are seeking to improve and nurture in order to align with the new changes.

Apr 14, 2019 · This is a practice-led, conceptual paper describing selected means for action learning and concept motivation at all levels of mathematics education.
