2019-2020 Review: Overview. In 2019, the Federal Reserve launched its first-ever comprehensive and public review of the monetary policy framework—the strategy, tools, and communication practices—it employs to achieve its congressionally mandated goals of maximum employment and price stability. At the time the Fed announced its review, employment and inflation were near the Fed's objectives, making it a good time to step back and consider whether the U.S. monetary policy ...
