The measurements given are your own body measurements and sizing for each individual product takes into account its intended usage. This means a size large Crew Neck base-layer will be smaller than a size large Down Jacket but Montane would still recommend choosing the same size. We are confident in the fit of Montane garments because:

1. Body height. ... from the top of the head to the ground – it is best to measure against a wall. 2. Arm length. ... measure the arm length from the shoulder joint to the wrist. Keep the elbow slightly bent. 3. Leg length.

**Montane Jacket Size Guide** For example, if you fit a size medium Active Mountain Fit baselayer, you will need a medium sized Active Mountain Fit mid-layer and the same in a waterproof. Similarly, our Classic and Slim legwear take into consideration what you may wear over or underneath in various **Montane Jacket Size Guide** - bitofnews.com

Montane Size Guide The size charts below will help you choose the correct size Montane product whether that be a waterproof jacket for men and women or choosing the correct size of backpack. The measurements given are your own body measurements and sizing for each individual product takes into account its intended usage.
